

That

Tinashe

I don't need nothin' 'long as I got you
I got you
And I will never go running, keep on doing me like you
Ooh, do
There's something in your touch I can't get enough...
I can't get enough

And I keep him begging for the freak inside me
When he needs me bad he asks me where it's hiding
I'm a tease like "Baby I forget, remind" Oh
If you keep on saying "Girl the way you ride me"
If you keep on chasing when it's time to find me
If you keep on banging when you get behind me
Guaranteed one day I'll be your little wifey

I'm a hit it down low where the bass go
Gimme that
Where the bass go, where the bass go, uh (Yeah I like that)
I'm a hit it down low where the bass go
Gimme that
Where the bass go, where the bass go, uh
Bring it right back
Baby hit down low where the bass go
Make your face go where the bass go, uh
Baby hit it down low where the bass go
Make your face go where the bass go, uh

Heaven all around me now that I'm with you
I'm with you, oh yeah
And I'll be sleeping extra soundly every time we're through
We're through
Don't ever falter now, I can't get enough
I can't get enough

And I keep him begging for the freak inside me
When he needs me bad he asks me where it's hiding
I'm a tease like "Baby I forget, remind me" oh
And I know it makes no sense, but the feeling's so intense
I want you like I've never wanted any other

And if we ever were to part
I would remember what it's like next to your heart
And I swear that's enough

Mommy why you movin' so fast?
cuz I knew just like that
I knew just like that
Go a little slower, make it last
It hit me just like that
Hit me just like that
So I dive right in the deep
Disregard what you told me
Hey, just like that
Ooh yeah yeah, just like that
Toxic waves crash over me
Can't escape the drowning feeling
I'm dying fast, and I'm born again as a lovebird
