Your bringing out the sunshine now  
Your shining like a diamond now

Let him know how hes heart felt this is what you cry for  
For you could'nt dream of it, now your feeling closer  
Yeah I'm just a ghetto kid, now I'm on a poster  
Trying to spend the feeling, heart beats racing  
I'm feeling with emotion, excitements, amazing  
Tell dem  
Weve been ever so patient and now were seeing sights so were reaching

(And now) Looking down from the birdseye  
(To shine) Shine on like a floodlight  
Show dem, diss ain't nothing like a mistake  
This is a risk that we all take  
(And now) Your looking down from the birdseye  
(To shine) Shine on like a floodlight  
Show dem, right nows perfect timing, clocks just don't slow down

People starring in their own life (eyeh, eyeh)  
But I was just a preview (eyeh, eyeh)  
The neighbours are open now, the whole crowds watching now  
People starring in their own life (eyeh, eyeh)  
But I was just a preview (eyeh, eyeh)  
Your bringing out the sunshine now  
Your shining like a diamond now

Yo, and it feels like a step away, must be the only way  
Yesturday was arms reach, now your fingertips away  
Following the back street pressures on, more heat, stay cool  
Don't freeze, now knowing another day show dem,  
We ain't gon blow them with a chance,  
Remember where we started from the roots to plants,  
Treating like it's final, thats why it's vital to focus,  
Don't even look away your glance

And now were all healed, were up to the point we can see over the hills  
You can play star, lead role in the films  
But don't stand still  
Cause your shining like a Diamond now
