

# Take The World

Tinchy Stryder

Yo, I got my bags packed  
Crepe's laced up, let the black match  
'09 was all mine, padlock it, had that  
My own mind, front line, war like its Baghdad  
I took aim, target the frame, I let him have that  
Few of us are here now, many more to come soon  
Let a little rain down, get ready for the monsoon  
Ready for the onslaught all you see is Concordes  
Black clouds will end this, ready for the full moon

I know, I know, that I'll be coming back around, yeah

And I'll be coming back around here, I'm on a cloud 9  
Tell me how it looks here

Maybe we can take the World tonight  
There's nothing that I wouldn't sacrifice,  
Till we made it, till we made it,  
I know we can make it through the fight  
As long as you're riding by my side  
Till we made it, till we made it, yeah

It's drama, yeah aint ready for the drama  
Ring the alarm we are blazing the lava

I'm drama, yeah there not ready for the drama  
What goes round, comes round that's Karma

Yeah we can make this, sure we can make it  
Had enough of asking so now we're gonna take it  
Open the doors wide, size 6 for the side  
Rearrange the game, lift the cheek bones, face lift  
Yeah, now we've mastered the basics  
Only difference is you wasn't blessed with the same gift  
Thanks I do give, I count my blessings  
Magic with words, full life no tricks

I know, I know, that I'll be coming back around, yeah

And I'll be coming back around here, I'm on a cloud 9  
Tell me how it looks here

There's nothing that I wouldn't sacrifice,  
Till we made it, till we made it,  
I know we can make it through the fight  
As long as you're riding by my side  
Till we made it, till we made it, yeah

Just like that, they say learn from your mistakes  
But we plan to perfection, so we don't plan to misplace  
(round and round and round and back again)  
And I do it at my own pace  
Yeah

Maybe we can take the World tonight  
There's nothing that I wouldn't sacrifice, no  
Till we made it, till we made it,

I know we can make it through the fight  
As long as you're riding by my side  
Till we made it, till we made it, yeah

Yeah yeah yeah yeah  
Black clouds  
Ring the alarm, we are blazing the lava  
And are they ready for the drama
