

## Before You Close Your Eyes

Tindersticks

Just as your eyes are closing  
There was something that I meant to say  
Like falling from my heart  
But I don't know how  
Before you close your eyes  
I don't know how

I never cry for our love  
I never cry  
I never cry for our love  
I never cry

There's no goodbye  
These hands have always lived through mine  
Now everything I touch I feel I don't know how  
Before you close your eyes  
I don't know how

I'm so cynical  
It's in my face and  
It's just the bird I caught  
Leaves its taste hanging round round round

Just as your eyes are closing  
There was something that I meant to say  
Like falling from my heart  
But I don't know how  
Before you close your eyes  
I don't know how

Never cry, never cry
