Dancing

Tindersticks

I understand everything
I understand everything
Take me in your arms
You knew how I feel
Before I knew, I was up to my neck
First time we danced

So I'll tell what brought you home tonight So, you're back, what brought you home? Oh, the dancing Take me in your arms You knew how I feel Running home

I couldn't wait to be inside you then You were all around me then So, is that what brought you home tonight Do you know what brought you home tonight? Was it the dancing?

Before I knew, I was up to my neck The last toe leaving ground First time we danced
