

I Was Your Man

Tindersticks

So, you wish I was your man, and I'd understand
So, you wish I was your man, and I'd understand
Not a surface thing, we could meet down inside
Not a surface thing, we could meet way down inside
You've got a smile that never reaches your eyes
You want to try to do something right

So, take me home tonight
Turn out the light
You're just alone in the dark

So, you wish I was your man, in my consciousness you ran
In my eyes, you swam, nothing's too much trouble for you

So, you wish I was your man, and I'd understand
So, you wish I was your man, and I'd understand you
You've got a smile that never reaches your eyes
You want to try to do something right

So, take me home tonight
Turn out the light
You're just alone in the dark
