

## The Turns We Took

Tindersticks

The turns we took to get here  
The turns we took to get here

The turns we took to get here  
But the ending is it so near ?  
'Cause we set out so long ago  
I can't remember how or why we took that road  
I can't remember how

Sometimes I wonder about  
( The turns we took to get here )  
And I wander backwards through my mind  
( The turns we took to get here )  
Always that feckless youth  
Taking me down roads I never wanted to travel  
Is that how I got here ?

But our song is carried on the wind  
And we chase so hard we fall  
She sees me down upon my knees  
And says: "Hey Charlie Boy, it's time to come on home  
It's time to stop pretending".

Somewhere in my house is a piece of paper  
( The turns we took to get here )  
A story that brings us to this place  
( The turns we took to get here )  
And I follow back down that line  
( 'Cause we set out so long ago )

Always that boy, scared of his own shadow  
( The turns we took to get here )  
Always that boy  
( The turns we took to get here )  
Turning me off, turning me on

The turns we took to get here  
The turns we took to get here  
But the ending is it so near ?  
The turns we took to get here  
Oh, the turns we took to get here
