

A Heart Can Save the World

Tinie Tempah

And you're gon think I'm crazy
Just a foolish girl
But I believe just maybe
A heart, a heart can save the world
Let's go!

A heart, a heart, a heart can save the world
I believe that
A heart, a heart, a heart can save the world
I believe that
A heart, a heart, a heart can save the world
Imagine if
A heart, a heart, a heart can save the world

I stay behind the scene, the whole world I love
While a child, how easy I was loved
I'm feeling like I could make the stars back up
I'm feeling like I could make the stars back up
Before I became a star I was switching up what?
Because you loved me feeling raw, now I'm still blowing up
Move your hands below the girl like a kiss in the crotch
Bad me, I'm versus genes, probably killing himself
Yea, turn up thinkin to blow
I know the rush a nigga bottle just a bit on my luck
Cuz every time I took the mic has got me singin for blood
It gave me everything I have, I fuckin give it a lot
Probably talk to you and we need to Eric em up
Full of blast, full of vibes, full of women in clothes
We need to minimize much, I give you nearly the stuff
He's gonna give us stuff to warm each other, feelings are dark

Tell Mr. Camera that I'm open
The people unemployed in a villa who devoted
Give me the price, pick it up and revive and we goin there
A hero, a soldier
Then we need to do it like you know it

A heart, a heart, a heart can save the world
Yea, you know it
A heart, a heart, a heart can save the world
Yea

A heart, a heart, a heart can save the world
I believe that
A heart, a heart, a heart can save the world
I believe that
A heart, a heart, a heart can save the world
Imagine if
A heart, a heart, a heart can save the world

Step in every city on the map, ain't scared
Know that it's the feeling that we got looks good
Maybe just the letters spelled backwards yea
And not why the fuck, who, those are Vera Wang's
So when you puff puff pass can you keep it alive?
You don't have to say you worry, you believe in the hype
'Cause we be dopin up to heavens, did you see in the sky?

Yea, girl give me a sign
And from my eyes did you see the blind leaving my eye?
It's on and kids up in there had to bigger the price
And my father was a man just to be in my life
Never see a audition, holding me on my side
Said don't ever leave your home before you fill you heart
Enjoy the feeling, I grew up because I need to survive
Because homie seeking that is gonna keep us alive

And you're gon think I'm crazy
Just a foolish girl
But I believe just maybe
A heart, a heart can save the world
Let's go!

A heart, a heart, a heart can save the world
I believe that
A heart, a heart, a heart can save the world
I believe that
A heart, a heart, a heart can save the world
Imagine if
A heart, a heart, a heart can save the world
