

Children of the Sun

Tinie Tempah

Lay down your head
You're not alone
Anywhere you go, I follow
We are the children of the sun
That's all you need to know

Lay down your head
You're not alone
Anywhere you go, I follow
We are the children of the sun
That's all you need to know

Lay down your head
You're not alone
Anywhere you go, I follow
We are the children of the sun
That's all you need to know

Lay down your head
You're not alone
Anywhere you go, I follow
We are the children of the sun
That's all you need to know

I'm just looking for some monsters

Lay down your head
You're not alone
Anywhere you go, I follow
We are the children of the sun
That's all you need to know

Lay down your head
You're not alone
Anywhere you go, I follow
We are the children of the sun
That's all you need to know

Lay down your head
You're not alone
Anywhere you go, I follow
We are the children of the sun
That's all you need to know

Lay down your head
You're not alone
Anywhere you go, I follow
We are the children of the sun
That's all you need to know
