Be the baddest chick and I'm feeling the buzz
She can do whatever it takes
Be the baddest chick and I'm feeling the buzz
She can do whatever it takes

Let me see your shape (shape), let me see your shape (shape)
I knew you was the one fore I even saw your face
I'm a hero in my ends and I ain't never wore no cape
I be putting on them pounds but I ain't gaining no weight
Let me see your shape (shape), girl, you're doing great (great)
Her lips around my Said she'd only do it for Dre
If you play your cards right you can sip some of this ace
If you play your cards right you can sip some of this ace
Backup plan, you on my table, CEO on my label
I get Irish money on Jewish bread, bitch we be making that bagel
No cameras at my table 'cause the consequence could be fatal
We got all your girlfriends in and now they're acting all grateful
She asking me for that Cain, I said I won't be Abel
She went to use the toilet and now she sounding nasal
Before my momma had me said she saw the angel Gabriel
Before my momma had me said she saw the angel Gabriel

I was like 4-5 yea
What a compilation
Man I see Louie V
What a combination
I done had a bad day
Feel nice a compensation
Nothing more important in the world than world domination
Down, look it up (shape)
Dance flow, pick it up (wait)
Still ain't got no patience
Better be quick, ain't never quick enough
It seems like rich ain't never rich enough (no, no)

I'm so nasty
I'mma probably be 70 years old
But happy I can still get it up
Drive it only like a surprise
Ooh, almost had me a stroke
Poppin champagne so I'm sober
Her tongue out, she gross, love it
I'm OG connected though
Presidential suite, presidential weed, respect my vote
Me and Tinie Tempah doing numbers, we protecting hoes
These niggas talkin shit, it really don't affect us though
I spent all my money on my outfit
Do that mean that I'm shallow?
I'll take a bad bitch and skedaddle
And she even showed me her tattoo
When I said

Let me see your shape (shape)
Let me see your shape (shape)
Let me see your shape (shape)
Let me see your shape (shape)
Be the baddest chick and I'm feeling the buzz
She can do whatever it takes
