

Darker shades never looked so bright  
I can't describe this feeling in my stomach  
My eyelids have a solid lock  
To see exactly what is going on  
Around me, around us  
That's okay  
Problems that I tend to face  
What gets me out  
Makes me want to stay  
And that's okay  
That's okay

It's safe to say it's all ironic  
I am building a coffin for a living (it's safe to say)

I know you've pushed me to keep my head held high  
But it only feels right when I look down  
Cause the clouds confuse me  
I want to believe that I'm okay on my two feet  
I've made mistakes and now I'm making my own bed

Please let me sleep (it's safe to say)  
Please let me sleep (it's safe to say)  
I will feel better in the morning

I don't want to, I don't want to  
I don't want to let you know that  
I tend to slip at moments where (I don't want to)  
I need a grip and have to focus (I don't want to)  
Maybe it's meant to be (I don't want to let you know that)

I just want to have you slow down, slow down

Slow down for me

I just want to have you slow down  
Listen to the message  
I'm trying to tell you that  
Maybe everything is meant to be  
Maybe everything is meant to be  
Volumes must lower since silence is gold  
Importance like marrow inside of your bones  
Swimming in circles is all that I know  
Well I'm a lost minnow with nowhere to go

Maybe everything is meant to be  
Maybe everything is meant to be  
I'm a lost minnow with nowhere to go  
The water, the loneliness is my home
