

Carve Our Names

Tired Pony

Am I talking to myself because
it wouldn't be the first time
Let's just run into the sea you say
go and just start running
Let's let the water deep in us, just
let the water drown the worry
With our bodies carve our names let's
carve our names into the ocean

You're in your own way again
Just breathe in and count to ten
Stop holding it all so tight
Just hold me for one last night

This little miracle this little answer to the silence
These parallel lines these dancers right beside us
Let's pretend we're just like them,
let's pretend we'll live forever
There's nothing else to me but you,
there's nothing else that I can think of

You're in your own way again
Just breathe in and count to ten
Stop holding it all so tight
Just hold me for one last night
