

The Way It Used To Be

TKA

Sometimes even now I think about you
And all of the things, I can't do without you
We meant almost, everything to each other
But you felt the need to go find another

I thought you and I were right together,
we would be forever true
You were so much more than love to me,
and I was just a toy to you

(chorus)
The way it used to be,
back when you still loved me
Our love was just a game
How could you leave me this way?
The way is used to be,
when all you had was me
But all of that now has changed
How could you treat me this way?

Now I find it, very hard to continue,
a part of myself was locked up within you
I could never think about tomorrow
And now I find it brings so much sorrow

Well I thought you and I were right together,
we would be forever true
You were so much more than love to me,
and I was just a toy to you

(chorus)
The way it used to be,
back when you still loved me
Our love was just a game
How could you leave me this way?
The way is used to be,
when all you had was me
But all of that now has changed
How could you treat me this way?

Ohh... I thought you and I were right together,
we would be forever true,
You meant more than love to me,
and I was just a toy to you

(chorus)
The way it used to be,
back when you still loved me
Our love was just a game
How could you leave me this way?
The way is used to be,
when all you had was me
But all of that now has changed
How could you treat me this way?

Your love is gone today!
How could you leave me this way?

Well, your love is gone today!
How could you leave me this way?

How could you leave me this way?
Uuuhh, oooohhh....pahh (3X)

How could you leave me this way...?
pahh, pahh, pahh, pahh
