Good Love

Everytime I get to see you I get this feelin' It's so fuzzy inside And as soon as I walk away from you I'm still tasting your kiss Saving it in my mind

It's not everyday I find A guy that makes me smile all the time Not the way that you do All the guys I thought I used to love Compared to you they don't match up They got nothing on you

I think I found a good good love The kind that will put it on you The kind that you wanna hold on to I think I found a good good good love We can be lovers and friends too And they'll do anything for you A good love

Baby you got somethin' special That has me thinking of settling down You're the one my mama told me Would sooner or later one day finally come around

I think I found a good good good love The kind that will put it on you The kind that you wanna hold on to I think I found a good good good love We can be lovers and friends too And they'll do anything for you A good love

I think I found a good good love The kind that will put it on you The kind that you wanna hold on to I think I found a good good good love We can be lovers and friends too And they'll do anything for you A good love

You bring me joy And you bring me much pleasure I could never see myself leaving you ever Your soft touch is good and it can't get no better You have got my mind so caught up I'm drunk off of your good love

I think I found a good good good love The kind that will put it on you The kind that you wanna hold on to I think I found a good good good love We can be lovers and friends too And they'll do anything for you A good love I think I found a good good good love The kind that will put it on you The kind that you wanna hold on to I think I found a good good good love We can be lovers and friends too And they'll do anything for you A good love

I think I found a good good good love The kind that will put it on you The kind that you wanna hold on to I think I found a good good good love We can be lovers and friends too And they'll do anything for you A good love

I think I found a good good love The kind that will put it on you The kind that you wanna hold on to I think I found a good good good love We can be lovers and friends too And they'll do anything for you A good love

I think I found a good good good love The kind that will put it on you The kind that you wanna hold on to I think I found a good good good love We can be lovers and friends too And they'll do anything for you A good love
