

## If They Knew

TLC

I don't know what she would do  
If she knew that you were comin'  
To do what we do

I don't know what he would do  
If he knew that you were comin'  
To do what we do

Always wondered if she knew about us  
When I met ya, you said ya'll had broken up  
Right on time cause I didn't have my love  
Me and him was on some other stuff  
That let me fall to you  
And from what I could tell, you fell too  
And I wonder if it would be wrong  
If we just kept it up

And I know we  
Both had someone that we just left home  
And they still think that they're the only ones  
I like the way we hang, but it ain't below  
When we know the feelings ain't all gone

I don't know what she would do  
If she knew that you were comin'  
To do what we do

I don't know what he would do  
If he knew that you were comin'  
To do what we do

Always thought that he knew about you  
When I met you, I said we were through  
In time my feelings came right back  
But I didn't let us get off track  
And I got so into you  
Way too fast, what do I do?  
When I know I shoulda held it up  
But you just turn me on

And I know we  
Both had someone that we just left home  
And they still think that they're the only ones  
I like the way we hang, but it ain't below  
When we know the feelings ain't all gone

I don't know what she would do  
If she knew that you were comin'  
To do what we do

I don't know what he would do  
If he knew that you were comin'  
To do what we do

Yeah, come on, what, uh, LaFace, come on  
We kept things pretty tight thus far  
Love without the sex

And hundred thousand dollar cars  
Ain't it funny how auras unify  
An entity upon itself, that can spread wings and fly  
A peaceful coexistence that will surely last  
Becomes a reminiscent dream for those in our past  
If they knew just a fraction of all the things we do  
They still wouldn't comprehend  
The depth between me and you

And I know we  
Both had someone that we just left home  
And they still think that they're the only ones  
I like the way we hang, but it ain't below  
When we know the feelings ain't all gone

I don't know what she would do  
If she knew that you were comin'  
To do what we do

I don't know what he would do  
If he knew that you were comin'  
To do what we do

I don't know what  
She would do if she knew  
I don't know what  
He would do if he knew  
Don't know  
Don't know  
I don't know  
Don't know  
I....
