Whoa whoa whoa whoa  
Whoa whoa whoa  
Whoa whoa whoa  
Whoa whoa whoa whoa

And I believe it don't affect  
Nobody else but me  
Ya'll been telling me what to do  
Since I was old enough to walk  
Old enough to talk  
Never let me speak or move  
Do my own thang  
But now I'm growin' wiser now  
Brighter now  
A little bit tighter now  
Now ya'll can't hold me down  
I know you hate to hear  
But things have changed in

My life  
It's been a while but  
Me and my style stuck  
Now everybody and they  
Momma tryna do it  
My life  
I've done that been through that  
So there ain't nothin'  
That you can tell me  
My life  
On a good night if I feel like  
Me and my girls hit the club and tell  
It's my life  
It's my life  
And I believe that it don't effect  
Nobody else but me me me me

Being sick and tired of folks  
Who wanna come around  
Claim they gon get down  
But all they wanna do is  
See me make a wrong move (yeah)  
I don't care what you hear in the news  
To see who I choose to do the late night creep wit  
I'm gonna do just what I wanna do  
It's my life

My life  
It's been a while but  
Me and my style stuck  
Now everybody and they

Whoa whoa whoa  
Whoa whoa whoa  
Whoa whoa whoa whoa  
And I believe that it don't effect nobody else but me

Sometimes I might get a little crazy  
And sometimes I might seem  
Out of hand but I'm sayin  
Life's too short for me to let you dictate  
What I say and the moves I make  
Sick of people tryna tell me what to do  
It's my life and I'ma live it like I want to

Check it  
Another day another dolla  
Is the reality of my mentality  
Otherwise don't even botha  
You see my father was a wise old man  
Always creatin the plan  
For me to conquer this land  
He said I am what I am  
So be the best that I can  
And if them others don't like it  
Then why should I give a damn (huh)  
Maybe so cause when his life wasn't right  
My mother picked up them pieces  
And continued on with the fight  
So now it's plain to me  
It ain't no game to me  
See mom and dad corrected math  
1 and 1 equal 3  
4 and 5 I count my sister and brother  
Stay alive till we die  
And don't you ever be worried  
Cuz I'm down with a ride  
Through peaks and valleys to Crescent Hills  
Tumble down I'll set a new ground for Jack and Jill  
Ever wonder what put the thunder deeply in my eyes  
Take a look and you'll find a sunshine
