Take Our Time

Let's take our time baby Love last forever Over and over We'll love together

Come here next to me And let me make you high No mistakes we will make A long time we will love

Let's take our time baby Love last forever Over and over We'll love together

Kiss me hold me tight And let's get wet tonight Happiness is pleasing you So let me make you cry

Let's take our time baby Love last forever Over and over We'll love together

Slowly deep inside me Hold me and kiss my body Only you can make me Oh so easy

Let's take our time baby Love last forever Over and over We'll love together
