

# Take Me Down (Fallen Angel)

TNT

Hey girl I'm a secret to you  
A face in the crowd  
Hey little angel I've been following you  
I know where you're going  
And when the full moon rises I'll be  
There

Are you lonely  
Ah you know I'm lonely to  
But I'm ready, ready for love, I'm coming  
For you

Take me down my fallen angel  
Spread your wings tonight  
Take me down my fallen angel  
Lay your heart on the line  
You won't be lonely anymore

Hey girl with your head in the clouds  
A pocket full of dust  
Now lady evil there's no need to be cruel  
The life you've been given is the only  
Thing worth livin' for

Are you lonely  
Ah you know I'm so lonely too  
Are you ready  
Ready for love, I'm coming for you

Take me down my fallen angel  
Spread your wings tonight  
Take me down my fallen angel  
Lay your heart on the line

Take me down my fallen angel  
Spread your wings tonight  
Take me down my fallen angel  
Lay your heart on the line  
On the line!

I can feel it now my fallen angel  
You won't be lonely

Take me down my fallen angel  
Spread your wings tonight  
Take me down my fallen angel  
Lay your heart on the line
