

# Endlessly

## To/Die/For

Life, like a poison in me  
Destroyed my innocence and dreams  
I've been told life is the gift  
Oh, that gift makes me sick!

Smiling faces, those happy ones  
I feel nothing  
I'm totally numb  
But in the silence of the night-time with you  
I can feel momentary warmth

You are too much for me to lose  
Endlessly I love you  
My blood still runs just because of you

You are too much for me to lose  
Endlessly I need you  
You're my shine  
You're my rain

Life, like a poison in me  
When comes the day of my destiny  
Without you I won't leave  
You're the shining light in the middle of the dark  
You're the rain in my withered heart

You are too much for me to lose  
Endlessly I love you  
My blood still runs just because of you

You are too much for me to lose  
Endlessly I need you  
You're my shine  
You're my rain

You are too much for me to lose  
Endlessly I love you  
My blood still runs just because of you

You are too much for me to lose  
Endlessly I need you  
You're my shine  
You're my rain

You are too much for me to lose  
Endlessly I love you  
My blood still runs just because of you

You are too much for me to lose  
Endlessly I need you  
You're my shine  
You're my rain
