

Choices

To Kill a King

I never took away your crutch
Just became it day by day
Blood filling up our boots
What's the use in talking
All you wanna do is walk
It's all you wanna do, do and
This is how the summer ends
This is how the summer ends

Never took away my crutch
Just became it day by day
Blood filling up our boots
What's the use in talking

Eyes are open finally
Eyes are open finally
And all you wanna do is walk
It's all you wanna do, do
And this is how the summer ends
This is how the summer ends

I, I have the same choices
As you do, as you do
When you fall
Fall like I knew you would
Leave me down, down, down
Leave me down

You never showed you what you want
I never told you what I need
A match bursting into flames
And all is dust soon enough

Eyes are open finally
Eyes are open finally
And all you wanna do is walk
All you wanna do, do, do
This is how the summer ends
This is how the summer ends

I, I have the same choices
As you do, as you do
When you fall
Fall like I knew you would
Leave me down, down, down
Leave me down

He's on your doorstep
He's laden with flowers
His garden is freezing teasing
You leaving me for hours

He's on your doorstep
He's laden with flowers
His garden is freezing teasing
You leaving me for hours, hours

He's on your doorstep
Laden with flowers
His garden is freezing teasing
You leaving me for hours and hours

He's on your doorstep
He's laden with flowers
His garden is freezing teasing
You leaving me for hours

He's on your doorstep
Laden with flowers
His garden is freezing teasing
You leaving me for hours, hours and hours

He's on your doorstep
He's laden with flowers
His garden is freezing teasing
You leaving me for hours
