

## Fall Down

Toad The Wet Sprocket

She said "I'm fine, I'm okay"  
cover, up your trembling hands  
There's indecision when you  
Know you ain't got nothing left  
when the good times never stay  
And the cheap thrills always  
seem to fade away  
When will we  
When will we fall down  
Jump back, got to get out of here  
been too long this time  
Jump back, got to get out of here  
When will we fall down  
She hates her life  
She hates her skin  
She even hates her friends  
Tries to hold on to all the  
reputations she can't mend  
And there's some chance we could fail  
but lthe last time someone was  
always there for bail  
When will we fall down  
Jump back, got to get out of here  
been too long this time  
Jump back, got to get out of here  
When will we fall down  
For the last time conscience calls  
For a good friend I was never there at all  
When will we fall down
