

## Hell Below / Stars Above

Toadies

Never heard you say goodbye  
Read your letter, made me cry  
Saw you with another guy  
Never one to waste your time  
You're in love, you're in love  
Hell below me, stars above

Saw you with that other man  
Feathered hair and tall and tan  
Treat him like I know you can  
Stroke his cheek and hold his hand  
You're in love, you're in love  
Hell below me, stars above

Stars above are shining down  
Nothing ever gonna hurt me now  
And I slip away happy as a clam  
Stars above are smiling now  
Ever since you put me down  
And I close my eyes, and I can't see your face  
Stars above are shining down
