I Burn

Toadies

Driftin' upward Gently lifting Lazy on the wind

Rollin' over Turnin' slowly Beginning and the end

Fire is bright Fire is clean Never so alive

Smoke is freedom Flame is mercy I am free tonight

And I burn I burn

Stoke the embers Cleanse the spirit A prayer in every spark

Feel the lick of Bad religion The finish and the start

In the beginning We were smarter And the flame was heaven-sent

Through the ages We got stupid Now we must repent

And I burn I burn

Sift the ashes For reminders Stony things remain

Tooth and bone Unimpressive I have left these things

Because fire is bright Fire is clean Efficient and divine

Tooth and bone Charms and dolls I am free tonight

I'm on
The air
You breathe

I'm on The air You Breathe

I'm on The air You breathe

I burn I burn

I burn
