

Little Sin

Toadies

Swimming in pride, my sweet thing
It's such a pretty night for losing
Our innocence, Our tenderness
It's all been kissed away
And now you know you're a free soul
And you can't fight that little sin

Swinging your hips, you found out
It's easy as sin to put me down
Don't roll your eyes
Don't breathe a sigh
You're not so shy
So help me, now you know you're a free soul
And you can't fight that little sin

So hard to wait just for a kiss
Now we're the same, we're all regret
No tenderness
No innocence
It's all been kissed away
And now you know you're a free soul
And you can't fight that little sin
