

Sweetness

Toadies

Peel away your skin just a little more
You can let me in just a little more
Can you taste it, I do
When you bite down on the truth
We can peel away just a little more
I'll cut you right down to your sweetness
Right to your sweetness

I know it hurts real bad to lay it open
I've tried so hard myself to make you love it
My love, my pride
I swallow you tonight
We can peel away just a little more
I'll cut you right down to your sweetness
Right to your sweetness
Peel away, peel away

Cut right down to the soul, to the center of you
I found me a home for the sinner in me
Cut down to the soul, to the center of you
I found me a home for the sinner in me
Cut down
The sinner in me

I'll eat you slow, my sweetness
You give control, my sweetness
I drink you down, my sweetness
I think I found my sweetness
my sweetness
