

You'll Come Down

Toadies

Give me back my legs
I want to walk like I did
You stole away my breath floating over my head
Do you lead me on with your fingers across my back, well
When I drag you down you will sink like an anchor
You will, like an anchor

And as I'm falling out of the sun, back to where I feel safe again
How did I come undone trying to save my own skin
I want to be your hero
I want to show you the good fight
I want to touch your face before you sink like an anchor
You will, like an anchor

You'll come down on my side
You'll come down in good time
You'll come down on my side
You'll come down...
