

I Know

Tobias Regner

You make me feel like a tree in dried out fields
When the good times went by
You're there for me when the time will go to fast
When I think that I could die

I never realized ' you're the actor of my life
And I never let you go

I know you're here still by my side and now
It's time to give it back
I know we're a part you belong to me and now
It's time to give it back

You crossed my way like an angel comes on earth
Can't find no words for you to say
I never felt this warmth and happiness
You're from heaven sent

I never realized ' you're the actor of my life
And I never let you go

I know you're here still by my side and now
It's time to give it back
I know we're a part you belong to me and now
It's time to give it back

No matter No matter ' No matter what you do
No matter no matter
No matter no matter ' my heart will catch you
No matter no matter

I know you're here still by my side and now
It's time to give it back
I know we're a part you belong to me and now
It's time to give it back
