

I still burn

Tobias Regner

I can't say
I feel alright
I can't say
I'm sleeping through the night
I can't say
I haven't thought about you - about you
You have always had a way
of seeing through the crazy things I say
Like I'm better off without you
but without you the truth is

I still burn like the sun
raging fire in my blood
I'm tired of living in a lie
I still crash at the thought
that I used to be
the beat of your heart
Oh Baby it hurts
Cause I still burn - I still burn

I remember when the lights went out
And the world forgot to turn around
And everything was closing in on me - on me
I swore that I would make it through
I wouldn't hit the ground because of you
That was a promise I couldn't keep
can't you see

I still burn like the sun
raging fire in my blood
I'm tired of living in a lie
I still crash at the thought
that I used to be
the beat of your heart
Oh Baby it hurts
Cause I still burn - I still burn

Cause I still burn

At the mention of your name
And the picture of your face
the heat I can't escape

I still burn like the sun
raging fire in my blood

I still crash at the thought
that I used to be
the beat of your heart
Oh Baby it hurts

Oh baby it hurts
Cause I still burn
I burn
Cause I still burn.
