

## My First Time

Tobias Regner

She tells him what she saw and heard today  
she opens up her heart  
The only one she's got here in this world  
He forgot how he lived without her  
but also what he has found in her

Rememberin' the first time when I saw her  
I should feel like that everyday  
Take care of what you've got as long as you've got it  
It's the only chance you have

She tells him what she saw and heard today  
but he doesn't even know  
What happend only five years ago  
He forgot how he met the one he loves  
and how his life was changed from above

Rememberin' the first time when I saw her  
I should feel like that everyday  
Take care of what you've got as long as you've got it  
It's the only chance you have

He forgot how he lived without her  
but also what he has found in her

Rememberin' the first time when I saw her  
I should feel like that everyday  
Take care of what you've got as long as you've got it  
It's the only chance you have

Rememberin' the first time when I saw her  
I should feel like that everyday  
Take care of what you've got as long as you've got it  
It's the only chance you have

She tells him what she saw and heard today  
she opens up her heart
