

Can't Buy You Money

Toby Keith

I got a sweet little woman at home she knows that I love her true
I've gotten three little kids on the floor
And they love their daddy too
I've got one on the way and I don't think I can pay the doctor bills
I never finished payin' the last one off
Don't guess I never will
Yeah we'd save it all up for a rainy day but it's always sunny
Guess all the happiness in the world can't buy you money

I got an old work truck it'll barely get me to town and back
I try and put in a little more overtime
But that don't pay no jack
So I bring it home where my baby's got my hot supper fixed
Yeah, then I lay down and rest my weary bones
And get back up at six
Just workin' hard in the land of milk and honey
Hey all the happiness in the world can't buy you money

But if I had plenty
I could keep us afloat
Yeah, then in the end if my ship don't come in
I'll just buy a big boat
I ain't got no money
Lord I'm knee deep in debt
We must be livin' on love from above
Cause we ain't hit bottom yet

I pick my paycheck up and go straight to the bank
That's my usual route
Then I go home and pick up the wife and kids
Cause we're goin' out, yeah
And it's a drive thru window and pick out a combo super size
Yeah then swing on down to the Wal-Mart
And let the kids pick out a prize
My truck broke down at the red light
She thinks it's real funny
Guess all the happiness in the world can't buy you money

Yeah we'd save it all up for a rainy day
But it's always sunny
Guess all the happiness in the world can't buy you money
Money
Can't buy you money
Money
