

# Every Time I Drink I Fall In Love

Toby Keith

I've been cussed and I've been kicked out  
Slapped in the head and I've been run out  
Told to grab my hat and take off walkin'  
Right now we get along real well  
Walkin' in this cheap motel  
Girl, what if that's just the whiskey talkin'?

Yeah, I'm givin' you fair warnin'  
Here's your chance to walk away  
From now until the mornin'  
Don't believe a word I say  
Yeah, if I don't wake up beside you  
It don't mean I didn't like you  
All it means is I've had time to sober up  
Girl, every time I drink I fall in love

First beer and I'm warmin' up  
Talkin' all that flirty stuff  
A few more, I become a line dance teacher  
A six pack and I don't care  
A twelve pack, you don't stand a prayer  
If I start doin' shots, just call the preacher

Yeah, I'm givin' you fair warnin'  
Here's your chance to walk away  
From now until the mornin'  
Don't believe a word I say  
Yeah, if I don't wake up beside you  
It don't mean I didn't like you  
All it means is I've had time to sober up  
Girl, every time I drink I fall in love

Every time I drink I start to think  
There's somethin' lower  
Than this head here on my shoulder  
I become a birddog when that  
Buzz starts takin' over  
And I'm a redneck cassanova

Oh, yeah!

Yeah, I'm givin' you fair warnin'  
Here's your chance to walk away  
From now until the mornin'  
Don't believe a word I say  
Yeah, if I don't wake beside you  
It don't mean I didn't like you  
All it means is I've had time sober up  
Girl, every time I drink I fall in love

Yeah, every time I drink I fall in love
