

# Forever Hasn't Got Here Yet

Toby Keith

Girl whatcha talkin' 'bout, I ain't believin' this  
I ain't settlin' for none of this foolishness  
We can't let a sure thing drown in a puddle of doubt  
It's just some rocky road but we've got solid ground  
It's just a little bump we can work around  
We've got a lifetime ahead so don't go quittin' me now

Come on baby we're still together  
This ain't as good as it's gonna get  
I swore I'd love you 'til the end of forever  
And forever hasn't got here yet

Does it matter girl who's really right or wrong  
This ain't the kinda thing we should sleep on  
I say we start it all over tonight with a kiss  
So slide over here mamma, it's gonna be alright  
Let's write it off as just another angry night  
I like it better when we're makin' up like this

Come on baby we're still together  
This ain't as good as it's gonna get  
I swore I'd love you 'til the end of forever  
And forever hasn't got here yet

Come on baby we're still together  
This ain't as good as it's gonna get  
I'll still love you 'til the end of forever  
And forever hasn't got here yet

I'll still love you 'til the end of forever  
And forever hasn't got here yet  
No it hasn't got here yet
