

# Go with Her

Toby Keith

Yeah daddy said "Son, I'm sorry  
You and Sheena ain't getting along.  
And if she's so dead set on leaving you boy,  
Why ain't she already gone?"  
Yeah, ya better break out some sweet talking,  
Cause I promise you you're gonna miss her,  
And I know what I'd do if my baby left me,  
Id pack up my things and go with her

You don't stay with the one you can live with,  
It's the one you can't live without,  
It's that one that's got you tore up in pieces boy,  
It's that one you keep talkin about

Yeah prides a tough pill to swallow,  
It'll leave you lonely cold, and bitter  
So what you need to do  
If she's gonna leave you  
You better pack up and go with her

Daddy said son, I'm through preachin  
I said all I'm gonna say  
And if you love her as much as I think you do,  
You're a fool if she gets away  
She can go any where that she wants to  
Don't give up, no don't quit her  
Just do like I did when you're mama left me  
Hell, I just packed up and went with her

you don't stay with the one you can live with,  
Its the one you can't live without,  
Its that one that's got you tore up in pieces boy,  
Its that one you keep fretting about

prides a tough pill to swallow  
It'll leave you lonely cold n bitter  
What you need to do, if she's gonna leave you,  
Pack up you things and go with her

you don't stay with the one you can live with,  
Its the one you can't live without,  
Its that one that's got you tore up in pieces boy,  
Its that one you keep crying about

prides a tough pill to swallow  
It'll leave you lonely, cold and bitter  
What you need to do if she's gonna leave you,  
Better pack up n go with her

yeah I know what I did when my baby left me,  
I packed up my things and went with her
