

# Lucky Me

Toby Keith

I can leave my dirty laundry lyin' anywhere  
If I don't make my bed it's alright, no one ever goes in there  
I can fall asleep on the couch and leave the TV on  
'Cause I've got the whole place to myself  
Now that all her things are gone

Lucky me, I've got room to breathe  
With her out of my way, I'm not crowded anymore  
And finally, I've got all the space I need to walk the floor  
Lucky me

Now I've got last week's dishes still piled up in the sink  
And lots of time here on my hands to sit around and think  
I'm better off in this house alone, it's a blessing in disguise  
And her leavin' came along, I know  
Right at the perfect time

Lucky me, I've got room to breathe  
With her out of my way, I'm not crowded anymore  
And finally, I've got all the space I need to walk the floor  
Lucky me

That sure was a close call, someone could have been hurt  
Yeah, she could be missin' me but that's not what I've heard and

Lucky me, I've got room to breathe  
With her out of my way, I'm not crowded anymore  
And finally, I've got all the space I need to walk the floor  
Lucky me

Lucky me, I've got all the space I need  
Lucky me, I've got room to breathe  
Lucky me
