

Think About You All of the Time

Toby Keith

Bet you'll be glad to know I got a
Brand new girl friend
She took my broken heart and
Passed it up again

She is good lookin' and she
Drives a Convertible
She likes to laugh a lot
Totally flirtable

I know that you think I'm lonely
But you got it wrong, Clementine
Hey, I don't miss you too much
But still I think about you all of the time

I hear the people talkin'
They say you're lookin' good
They seen you walkin' with him
Down in the neighborhood

You got all lovey-dovey
With this handsome man
I did not catch the rest
I got it second hand

I know that you think I'm lonely
But you got it wrong, Clementine
Hey, I don't miss you too much
But still I think about you all of the time

I think about you
When I'm dancin' and when I'm asleep
I think about it too
And if I tense
I start romancin', you guessed it
I think about you

Baby, I know that you think I'm lonely
But you got it wrong, Clementine
Hey, I don't miss you too much
But still I think about you all of the time
Hey, I don't miss you too much
But still I think about you all of the time
