

# Don't Believe This Is Love

Toby Lightman

Tingle on my skin is just the wind  
you can kiss my cheek cause you're my friend  
My knees get weak maybe that's just me  
This might be love but I don't wanna see

What's in front of me  
What you and I could be

I don't believe this is love  
You can't tell me  
This is love  
tell myself another lie, even though  
My heart disagrees  
I'll never believe this is love

The twinkle in my eye is just from the sun  
This ain't getting serious we're just havin fun  
I stumble over words almost everyday  
It's not you that's making me act this way

Once again I'll say  
put it off another day

I don't believe this is love  
You can't tell me  
This is love  
tell myself another lie, even though  
My heart disagrees  
I'll never believe this is love

People smile and stare  
When they see us  
All my friends say  
it's obvious  
am I fooling myself  
if I say it ain't so  
how can I be in love  
and be the last one to know
