

Love Is All Around

Toby Lightman

The look in his eyes
Tells me, just how I oughta look at the world
So innocent, so easy to print on the face of paper doll
While holding his hand
Shows me, fair skin, now I know what's really happening
With all of the trees, and all of their leaves, they'll never l
ook the same again

Cause I, I know that
Love is all around

The dream on his face
Let's me know the stars glow
even when the light doesn't show
the difference between, who's nice and who's mean
well we don't really care for them
While, I was walking a fine line, on my time
stubborn cause that's what my sign tells me
I can be, then he found me, I'll never be the same again

Cause I, I know that
Love is all around

Eyes, Look at the world
For the first time
Through his blue

Cause I, I know that
Love is all around
