

Milk And Honey

Toby Lightman

He had big brown eyes
Beautiful lies
And a smile to keep me warm for days
But he always made me chase him around in his maze

I had to get up, get out, get off this ride
I had to get away
I always knew deep down, he wasn't right for me

I wanna find a beautiful mind
So perfectly, packaged for me
Tailor made like a little girl's dream

I want milk and honey
I want love and money
I only want cake if I can eat it too, then wash it all down with
a man that's true
Milk and honey

Flash back to another man
Stuck in the palm of my hand
I tried to spice him up, but he always came out bland

If he'd stood up, spoke out, took a chance on life enough to
make me care
Maybe we'd still be making out somewhere

I wanna find a beautiful mind
So perfectly, packaged for me
Tailor made like a little girl's dream

I want milk and honey
I want love and money
I only want cake if I can eat it too, then wash it all down with
a man that's true
Milk and honey

I'm not gonna sit here and wait
No time to waste
I'm gonna get my milk and honey
