

# Overflowing

Toby Lightman

Trying hard to swallow this pill  
Maybe then I'll be able to feel  
I can do it, I know I will  
Trying hard to make it go down  
Always manage to slip and slide  
Always taking a carpet ride  
Always wanted to look not hide  
Cause I never want to be found  
until I take a look around

They think I'm a waste of time  
They think I'm lost and that's fine  
They call me crazy while they're holding me down  
But I'm overflowing and I'm gonna get it out

Maybe I can walk on the sun  
Maybe I'll be the only one  
Man I just want to have some fun  
Cause baby I'm born to roam

They can try to turn off the light  
But they better expect a fight  
They can try with all their might  
But I'm never gonna go home,  
So please leave me alone

It's taken all my life, it's taken all this time  
And only I know why  
Gotta make a plan gotta take a stand,  
tell them who I am  
So I can breathe this morning
