

Winter's The Time For Love

Toby Lightman

such snowy bliss, you warm me with a kiss
smiles all around, bells making beautiful sounds
love is in the air, carols everywhere
folks fall in love fore the new year starts

the summer may come with a mighty glow
and it warms the sand on the ground below
but nothing compares to snuggling up with you and my hot chocol
ate in a cup
yeah the spring may bring tulips and roses
smells so nice on all of our noses
but nothing compares to snuggling up, yeah winters the time for
love

a lovely fire, and a hearts desire
While outside it snows, You warm my toes
no other season, brings the perfect reason
to fall in love with an open heart

kissing in the rain, can be a soggy pain
kissing in the snow and away we goo
winter you can't deny cause it when you and i
we first fell in love, under the stars above

the summer may come with a beach and tan
but you need your AC or a working fan
yeah nothing comes close to cuddling up through the winter with
the one you love
yeah the spring may bring tulips and roses
smells so nice on all of our noses
but nothing compares to snuggling up, yeah winters the time for
love
