

# Eye On It

TobyMac

Eye on it, eye on it  
Eye on it, eye on it  
Eye on it  
Eye on it  
Eye on it, eye on it  
I set my eyes to the west, walking away from it all  
Reaching for what lies ahead, I got my eye on it  
I see my sweat hit the ground  
I put my feet in the block  
This is the race of my life  
And I can't wait for his shot  
'Cause I can see the wind on my back  
Just as prone like I'm on attack  
See the moving and my mind is locked  
Pressing on with everything I got  
I got my eye on it  
I got my eye on it  
I got my eye on it  
Eye on it  
I've got my eye on the prize, I've got my eye on it  
I've got my eye on the prize, I've got my eye on it  
I've got my eye on the prize, I've got my eye on it  
I've got my eye on the prize and I will not quit  
I've got a new passenger to help me navigate the way  
So when my heart hits the floor I can recalibrate  
I feel the deeper call in me, all of suspecting in the  
past  
So let me run in the race that I always finish up in  
the last  
'Cause I can see the wind on my back  
Just as prone like I'm on attack  
See the moving and my mind is locked  
Pressing on, I've gotta take my shot  
I got my eye on it  
I got my eye on it  
I got my eye on it  
Eye on it  
I've got my eye on the prize, I've got my eye on it  
I've got my eye on the prize, I've got my eye on it  
I've got my eye on the prize, I've got my eye on it  
I've got my eye on the prize and I will not quit  
I will not quit  
I got my eye on it  
I got my eye on it  
I got my eye on it  
Eye on it  
I've got my eye on the prize, I've got my eye on it  
I've got my eye on the prize, I've got my eye on it  
I've got my eye on the prize, I've got my eye on it  
I've got my eye on the prize and I will not quit
