One time One world Two times One love Three times Rewind 'Cause I'm a dedicate this song to everyone of God's children Come as you are Come just like you be It's the bumps and curves of our history But no blocks in the road that we can't traverse And no wounds from the past that can't be nursed All hate gonna dissipate from our fate No check, together we got a checkmate All hate gonna dissipate and fade away To make room for a brand new day We got one world 'til its time to fly We got so it's one love 'til we say goodbye We got one world its enough to share Til we're called home and we're caught up in the air we got One world I'll look out for you, you look out for me One world Together we can be perfect harmony One world I'll look out for you, you look out for me One world And I'm a dedicate this song to everyone of God's children One world oughta be more than enough And if its not, is God looking in pure disgust? Wondering what the dilly with the silly I see? When I made each of these in the image of me Everyday is a chance for a new stance Like every song is the beginning of a new dance And everyone of us was made to reflect the light And glorify the most high so bright We got one world 'til its time to fly So it's one love 'til we say goodbye We got one world its enough to share Til the king calls us home and we're caught up in the air we got One world I'll look out for you, you look out for me One world Together we can be perfect harmony One world I'll look out for you, you look out for me One world And I'm a dedicate this song to everyone of God's children You can come as you are Love is yours Love is ours I am a witness sweet forgiveness You will shine like a star Burning bright where you are in our one world, one world Like a star, like a star, like a star One World

Like a star, Baby
One World
And I'm gonna dedicate this song, dedicate this song
One world
I'll look out for you, you look out for me
One world
Together we can be perfect harmony
One world
I'll look out for you, you look out for me
One world
And I'm gonna dedicate this song, dedicate this song
Lets come together and love,
Lets come together and love,
