

# Tonight

TobyMac

Hey!

Everytime I try to go in alone I get shut down,  
Locked up and held captive in the clutches of my down

We go back, we go forth,

We go back

I'm sick with vertigo

Weary of my ways, my days

My lips are frozen

I wanna feel a new day

(There's gotta be more than this)

I wanna live a new way

(There's gotta be more)

I wanna feel a new day

(There's gotta be more)

I wanna live a new way

(There's just gotta be more)

Right here, right now

Under the stars, I promise you my heart

Cause it starts tonight!

We wanna rise,

We wanna touch the other side

(It starts tonight!)

We wanna soar

We wanna reach right out for more

(Cause it starts tonight!)

We wanna rise,

We wanna touch the other side

(It starts tonight)

We wanna soar,

We wanna reach right out for more

(Cause it starts tonight)

Tonight tonight

Tonight tonight tonight

Tonight

Can't feel like any night before

Under the sky full of stars

With hearts that want more

(Tonight)

Like the rhythm no dam can hold

Bein' drivin' by a source overflowin' our souls

(Tonight)

Won't be like any night we have seen

It changes everything (e-e-e-e-everything)

Right here right now

Under the stars

I promise you my heart

Cause it starts tonight!

We wanna rise

We wanna touch the other side

(It start tonight!)

We wanna soar  
We wanna reach right out for more,  
(Cause it starts tonight!)  
We wanna rise,  
We wanna touch the other side  
(It starts tonight!)  
We wanna soar,  
We wanna reach right out for more  
(Cause it starts tonight!)  
Tonight tonight  
Tonight tonight tonight

Tonight

So let us seize this night  
Let us make off great  
It's on like the break of dawn

So let us seize this night  
Let us make our flight  
It's on like the break of dawn

Tonight  
Tonight

Cause it starts tonight!...

Cause it starts tonight!

I wanna feel a new day  
I wanna live a new way  
(It starts tonight)  
I wanna feel a new day  
I wanna live a new way  
(We don't wanna fall tonight!)  
We wanna rise  
We wanna touch the other side  
(We wanna shine tonight!)  
We wanna soar  
We wanna reach right out for more  
(We don't wanna fall tonight)  
We wanna rise  
We wanna touch the other side  
(We wanna shine tonight!)  
We wanna soar,  
We wanna reach right out for more  
(We don't wanna fall tonight)  
Tonight tonight

(We wanna shine tonight!)  
Tonight tonight

Cause it starts tonight!
