Unstoppable

TobyMac

```
We are, we are
We are, we are
We are, we are
We are, we are
We are the travelers, we look to the ever after
We are the strangers, we're practically in danger
We know this road well, it never seems to bode well
It's our predicament and we ain't even sick of it
We make our moves in mysterious ways
We'd rather burn out than stick to the shade
Not of this world so we live on the run
We keep our eyes set, eyes set on what is to come
We are, we are (we are unstoppable)
We are, we are (for the impossible)
We are, we are (we are the kingdom come)
That's what we are, that's what we are
We are, we are (we are unstoppable)
We are, we are (for the impossible)
We are, we are (we are the kingdom come)
That's what we are, that's what we are
We keep it moving, this path is by our choosing
When we get tripped up we call above for lift up
Stay busy bashing while we proceed with passion
They say we missing it but I'm inclined to stick with this
We make our moves in mysterious ways
We'd rather burn out than stick to the shade
Not of this world so we live on the run
We've got our heart set on what is to come
We are, we are (we are unstoppable)
We are, we are (for the impossible)
We are, we are (we are the kingdom come)
That's what we are, that's what we are
We are, we are (we are unstoppable)
We are, we are (for the impossible)
We are, we are (we are the kingdom come)
That's what we are, that's what we are
That's who we are
There's no disguising, truth is rising
That's who we are
There's no disguising, truth is rising
To live as Christ, to die is gain
We're not afraid, we're not afraid
To live as Christ, to die is gain
So wake the guards, we're not afraid
We are, we are
We are, we are (we are unstoppable)
We are, we are (for the impossible)
We are, we are (we are the kingdom come)
That's what we are, that's what we are
We are unstoppable
That's what we are, that's what we are
For the impossible
That's what we are, that's what we are
Unstoppable
We are, that's what we are
For the impossible
That's who we are, that's who we are
```
