

My Life With You

Today Is The Day

It's over Get the f**k out I don't need this shit I'm not the problem
You're not my friend I'm all out of money All you could spend
My life with you
You're makin me sick I can't hear that no more No one to talk to No one
no more I'm leavin' today I won't be back I take what I want
No slack I
can't count on you Hopeless now you're gone and I'm sad and
you're just a
memory One that went bad I cannot hate you For what you have
done I will
just miss you And all of the fun Nothing is sacred
