

## Remember To Forget

Today Is The Day

Cold wind whistles loud  
Listen to me  
I am not your friend  
Final end  
Then you sleep  
All I want to be  
Can't you hear me  
Naked  
Ripped and torn  
I am born at your feet  
Last time you will wake  
Then you answer  
No I can't be true  
This is you  
Can't wake up

On my own  
Can't defend myself from you  
Locked away  
Swept away  
I know it's true my friend  
I know it's you the end  
Gone away  
Swept away  
Inside it hurts so bad  
Outside a life I've had  
Locked away  
Swept away  
In you can free yourself  
It's true  
Just be yourself  
Gone away  
Swept away  
Locked away  
Swept away

Once again you beat me down  
Standing strong and feeling proud  
Locked away  
Swept away  
Can't go down that road again  
Feeling down  
I'm at the end yeah  
Gone away  
Swept away  
Love inside  
It's yours to take  
Love can't hide love so great  
Locked away  
Swept away  
I can't release myself  
I can't accept myself  
Locked away  
Swept away  
Gone away  
Swept away  
Only you can free yourself

In my mind  
Lonely slips away  
In you I find  
Fragments of my day  
Long ago  
I remember this  
Can't hold on to I remember when
