

Reached Down

Todd Agnew

I fell so far, I did not know anyone could save me
I could not find a light as far as I could see
My body lay broken at the bottom of my prison
My hope washed away as the waves crashed over me

You reached down and saved me
You parted the sea and so I could breathe
You reached down and saved me
You pulled me from all that was drowning me

I could not see the top of the well in which I'd fallen
And I was choking on the rising tide of filth and shame
You pulled me from the mouth of hell so You could hold me
You knew, You'd save me long before I called Your name

You reached down and saved me
You parted the sea and so I could breathe
You reached down and saved me
You pulled me from all that was drowning me

You reached down and saved me
You parted the sea and so I could breathe
You reached down and saved me
You pulled me from all that was drowning me

And you reached down and saved me
You parted the sea and so I could breathe
And you reached down, you reached down and saved me
You pulled me from all that was drowning me

From all that was drowning me
From all that was drowning me
Yeah, yeah, yeah
