

# Determination

Todd Rundgren

Girl the last time I saw you, you were crying my name  
When I put you on the spot, will you still feel the same

Show me some determination  
Show me the measure of your dedication  
I need to see just a reflection of your inspiration  
Don't you break down on me, don't you break down on me

I'm looking for someone, someone strong enough to believe in  
Everybody's looking for someone strong enough to stand on his feet  
And never break down

I'll put my life on the line and believe what you say  
I'll go out on a limb if you meet me halfway

Show me some determination  
Show me the measure of your dedication  
I need to see just a reflection of your inspiration  
Don't you break down on me, don't you break down on me

I'm looking for someone to show me what they mean by devotion  
Everybody's looking for someone prepared to put aside his emotion  
And never break down

You're a new wave raver and you like to talk tough  
But can you still cut the mustard when the going gets rough

Show me some determination  
Show me the measure of your dedication  
I need to see just a reflection of your inspiration  
Don't you break down on me, don't you break down on me

I need a demonstration of your determination  
Give me an indication of your determination

Yeah, oh oh oh

Determination  
You've got to show me the measure of your dedication  
I need to see, I need to see just a reflection of your inspiration  
Don't you break down on me, don't you break down on me

Three days in the rain and I ain't had no sleep  
But I won't break down now, I got a promise to keep  
Showing my determination, 'cause that's the way I am

Determination  
Show me the measure of your dedication  
Just a reflection of your inspiration  
Don't you break down on me, don't you break down on me
