

# Fidelity

Todd Rundgren

I've been hurt  
I've never been so hurt  
Yes, and only you know why  
But I would be far more hurt if we had to say good bye

When I think that it's all or nothing  
I tell myself

True love does not demand fidelity  
If there's one sacred place always in your heart for me

Time has come  
I knew the time would come  
When someone would want to be more than friends  
But we had a love so sweet  
I thought the dream would never end

If my love could not withstand this jealousy  
I'd remember the day I threw away our eternity

Has no plan, things will happen we don't understand  
One day the glove is on the other hand  
And when you think that it's all or nothing  
Just tell yourself

If our love could not withstand this jealousy  
We'd remember the day we threw away our eternity

If it's true love, it does not demand fidelity  
Oh it hurt me so bad  
But I can't help but love you for eternity  
I know we got a true love
