

## Is It A Star?

Todd Rundgren

Is it a star, or is it me  
You say you believe in  
And the nights  
When my stage smiles not so wild, and ain't coming easy  
Can't you see it's me  
All broken down inside  
Can't you see it's me  
All broken down inside  
Can't you see it's me  
Honey, you've been dreaming  
Then they'll meet you on the streets, and say they've had  
A crush on you, for a year or two, maybe three  
And they say "Hi, how you doing", but is it really me, or you,  
You say you believe in  
Baby, you've been dreaming  
Can't you see it's me  
All broken down inside

Can't you see it's me  
All broken down inside  
Can't you see it's me  
All broken down inside  
Can't you see it's me

All broken down inside  
Baby, you've been dreaming  
You see it's me  
Is It A Star, or is it me  
You say you believe in  
And all of the nights  
When my stage smile lasts awhile, coming easy

Can't you see it's me  
All broken down inside  
Can't you see it's me  
All broken down inside  
Can't you see it's me
